

DREADNOUGHT IS CHRISTENED BY LITTLE GIRL

NEVADA, COUNTRY'S GREATEST
BATTLESHIP, KISSES WAVES
AT QUINCY, MASS.

Quincy, Mass., July 11.—Amid cheers from thousands of throats, one of the greatest battleships ever built for the United States or any other country was successfully launched today at the yards of the Fore River Ship-building company. As the vessel slid off the ways little Miss Eleanor Siebert, the 10-year-old niece of Governor Oddie of Nevada, broke a ribbon-encased bottle of champagne over the bow of the mammoth sea fighter and christened her Nevada. It was 1:30 o'clock when the massive hull started slowly down the incline, and a few moments later it was floating gracefully in the waters of the Fore river.

The launching of the great ship drew to the yards a notable gathering of distinguished people. In addition to the official party representing the state in whose honor the battleship was named, and which was headed by Governor Tasker L. Oddie, the notable guests included Secretary of the Navy Daniels and Assistant Secretary Roosevelt. Naval officers from Charleston, Portsmouth, Newport and other places also were included in the attendance.

The Nevada is a sister ship to the Oklahoma, which was launched on March 23 last at Camden, N. J. The two vessels are of the latest dreadnaught type and present some features of interest entirely apart from their great size. In the first place, they are the first large battleships ever built in which oil will be used exclusively for fuel purposes. This has enabled the designer to dispense entirely with coal bunkers—the oil being carried chiefly in the double bottom of the ship. The omission of bunkers sets free a large amount of space below decks, which has enabled the designer to concentrate all of the six boiler compartments at the center of the ship, where they occupy only 65 feet of her length. Hence it is possible to use a single smokestack, placed immediately above the boiler rooms.

The keel of the Nevada was laid on November 4, 1912. At the present time she is more than 70 per cent completed, or about 10 per cent more than the average of such ships at the time of their launching. The dead weight of the ship as she stands today is upwards of 12,000 tons and she has her boilers and the backing for her armor in place. There are no guns aboard as yet. Her displacement will be 27,500 tons and she will have 24,000 indicated horse power.

The Nevada and the Oklahoma represent, to a greater degree than any of their predecessors the united experience and thought of the various branches of the naval service, and the officers of both line and staff unite in the belief that these two ships will be the most powerful in the world.

The principal interest of the new ships lies in their great defensive power. Not only will they carry a much greater weight of armor than has been carried, or is to be carried, by any ship built or building, but the armor will be disposed to greater advantage. The armor belt is 13½ inches thick, and the casing of the barbettes 13 inches. In the turrets the armor varies from 9 to 18 inches in thickness, and the armor of the conning tower and tube is 16 inches. The covering of the gun deck is three inches thick, and that of the protective deck two inches.

An important feature of the side armor is the way the plates are attached to the ship. In the older ships the plates are arranged horizontally in two strips, with a continuous horizontal seam, which is slightly above the water line, between the upper and lower strips. This arrangement presents a continuous point of weakness near the water line at a most vulnerable point. In the Nevada and the Oklahoma the armor plates are laid vertically and extend the whole depth of the belt.

The ten 14-inch guns in the main batteries are to be placed in four turrets, the turrets are placed two forward and two aft, and the arrangement is such that each of the 14-inch guns can be fired in broadside from either port or starboard, while with a little maneuvering all of the guns can be fired almost dead ahead or astern. In two of the turrets, the one most forward and the one in the stern, there will be three guns. Each of the other turrets will contain two guns. They are the first three-gun turret ships built for the United States navy.

The Nevada is 554 feet long. When going at full speed she will make more than 20 knots an hour.

If you have neglected your kidneys and suffer from backache, weak back, headache, rheumatism and distressing bladder weakness, you will find Foley's Kidney Pills to be the honestly made, healing and curative medicine you need to give you back your health and strength. They are tonic in action, quick to give good results. They will help you. O. G. Schaefer and Red Cross Drug Store.—Adv.

ROYALTY VISITS STIRLING
Stirling Scotland, July 11.—King George and Queen Mary today concluded the first week of their stay in Scotland with a visit to Stirling and the historic country surrounding, including the battlefield of Bannockburn. The Duke of Montrose, the magistrates and other dignitaries of the town greeted their majesties upon their arrival in Stirling this morning. The city was profusely decorated in

Boy or Girl? Great Question!

This brings to many minds an old and tried family remedy—an external application known as "Mother's Friend." During the period of expectancy it is applied to the abdominal muscles and is designed to soothe the intricate network of nerves involved. In this manner it has such a splendid influence as to justify its use in all cases of coming motherhood. It has been generally recommended for years and years and those who have used it speak in highest praise of the immense relief it affords. Particularly do these knowing mothers speak of the absence of morning sickness, absence of strain on the ligaments and freedom from those many other distresses which are usually looked forward to with so much concern.

There is no question but what "Mother's Friend" has a marked tendency to relieve the mind and this of itself in addition to the physical relief has given it a very wide popularity among women. It is absolutely safe to use, renders the skin pliable, is penetrating in its nature and is composed of those embrocations best suited to thoroughly lubricate the nerves, muscles, tendons and ligaments involved.

You can obtain "Mother's Friend" at almost any drug store. It is prepared only by Bradford Regulator Co., 401 Lamar Bldg., Atlanta, Ga.

honor of the occasion and filled with hundreds of visitors. Following the exchange of greetings the king presided at the laying of the foundation stone for the new municipal building. The king and queen were then taken by automobile to Stirling Castle, where they were the guests of the lord lieutenant of the county luncheon. After leaving the castle, the royal party returned to Edinburgh by way of Bannockburn, Falkirk and Linlithgow.

EXPOSITION FUNDS RECEIVED
Santa Fe, July 11.—The New Mexico exposition commission today received from the county commissioners of Luna county a warrant for \$500, the first payment on the appropriation for \$2,000 made by that county. Word was received today that Curry county has appropriated \$500 and Roosevelt county \$1,000 for the same purpose. Colfax county has voted \$2,000, Grant county \$2,000, Chaves \$2,000, Santa Fe \$1,500 and other counties that are progressive are rapidly falling into line so as to be adequately represented at the San Diego exposition.

DON'T WAIT
Take Advantage of An East Las Vegas Citizen's Experience
When the back begins to ache, Don't wait until backache becomes chronic;
"Til kidney troubles develop;
"Til urinary troubles destroy night's rest.

Profit by an East Las Vegas citizen's experience.
Mrs. S. North, 905 Tilden Ave., East Las Vegas, says: "I have used Doan's Kidney Pills off and on when I have needed them and so has another of our family. Doan's Kidney Pills were recommended to us by a doctor while we were visiting in Harrisburg, Pa. Having twice before publicly recommended Doan's Kidney Pills, I am glad to acknowledge their worth. We have found them to be a reliable remedy for relieving backache and other troubles, caused by disordered kidneys."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. North had. Foster-Milburn Co., Props., Buffalo, N. Y.

SIX-YEAR VOYAGE UNDERTAKEN TO MAKE CHARTS

BRITISH EXPEDITION PURPOSES
TO FIND ISLANDS FOR BENEFIT OF MARINE

London, July 11.—Six years at sea and a voyage of 210,000 miles to hunt and chart islands, reefs and banks of doubtful location is what the British Antarctic and oceanographic expedition now proposes to do for the benefit of the world's merchant marine. Originally Sir Ernest Shackleton and J. Foster Staekhouse intended only to survey and chart the coast of the Antarctic continent, looking for such menaces to shipping as might lie on their voyage down and back. But the charts disclose so many points marked D. P. D. and E. D.—doubtful position doubtful and existence doubtful—that the explorers have added two and a half years to their projected voyage, which starts next December in the "Discovery."

The seven seas have never been accurately charted because, says Mr. Staekhouse, "being everybody's business it was nobody's business to do it." Even the north Atlantic has its doubtful islands and sunken rocks. Four different mariners, previous to the Titanic disaster, reported seeing rocks near the point where the ship went down, and this is one of the first things to be investigated by the Discovery. Polynesia, Melanesia and Malaysia are notorious for volcanic and coral obstructions, and the Panama canal will open new routes through these dangerous seas. The South American and African coasts have their doubtful rocks. Mr. Staekhouse considers it just as important to find out that a menace does not exist as that it does.

The new sea charting expedition is financed by public contributions. Its 15 officers and scientists have given their work for the next six years gratis. The only expenses besides the equipment are those incidental to running the ship and the pay of the crew of 19 men. The foremost hydrographer of Great Britain, Captain J. A. Rupert Jones, will have charge of the soundings and Lieutenant Humphreys will do the land surveying. Various other kinds of scientific work are planned including observations as to the magnetic pole.

Existing charts disclose facts which have a disturbing influence on traffic, such as the presence of shallow soundings in areas of deep water. Such places will be carefully searched for submerged rocks. All corners of the world will be visited and studied by the expedition.

The Discovery is a wooden ship with steam auxiliary, especially designed for work in icy waters, and she will carry the latest sounding machinery. While the voyage is planned to last six years, the officers and crew are signed for seven in event of delays.

INTER-LAKE REGATTA

Toledo, O., July 11.—Putin-Bay is today the rendezvous for craft of many descriptions from Buffalo, Cleveland, Detroit and other ports on the Great Lakes. The gathering of the boats is preliminary to the opening of the annual regatta week of the Inter-Lake Yachting association. The officials and members of the association predict that this year's regatta will be one of the most successful in the history of the organization. The program provides for contests for both sailing and power yachts. In addition the week will be marked by many elaborate features of social entertainment for the visiting yachtsmen and their ladies.

If Kidneys and Bladder Bother
Then Foley Kidney Pills
Overworked kidneys will break down if not helped. When they can no longer protect the blood and the body from the poisons that come to them, then look out for Bright's disease, serious kidney trouble and bladder annoyances. Foley Kidney Pills are your best protection, your best medicine for weak, sore, overworked kidney and bladder weaknesses.—Adv.

STRANGE SUIT FILED
Santa Fe, July 11.—A suit involving rather extraordinary features was filed today by District Attorney Alexander Read against Toribio Salazar and wife, to quiet title to a parcel of land near Chamita, Rio Arriba county, on the ground that it was deeded to Salazar by his mother fraudulently. The plaintiff alleges that the aged woman signed the deed thinking it some other agreement. The woman is totally blind and so old and feeble that depositions will be taken immediately to perpetuate her testimony.

A CONFESSION

Hopes Her Statement, Made Public,
will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight.

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.
For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year.

Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. No. 120

FOREIGN TENNIS STARS COMING

London, July 11.—Three of the foremost tennis players of England sailed for New York today on the Aquitania to compete in the coming matches for the Davis international challenge cup. They are Stanley ... Doust, Norman E. Brookes and Anthony F. Wilding. All three have taken part in previous international competitions and are ranked among the most expert racket wielders in the British Isles.

HIRSUITE ASPIRATIONS NIPPED IN THE BUD

AT INITIATORY EXERCISES OF
SOUTHERN SOCIETY, CANDI.
DATE IS RUDELY SHORN

Some excitement was furnished the members of the Southern club of the New Mexico Normal University last night after the McFarlane lecture, when four new members were initiated. C. E. Cary, R. S. Tipton, Fred A. Orr and James R. Shock went through the mill and received their membership badges.

One of the funniest and liveliest events of the evening occurred when a number of the boys captured Marion Barker and proceeded to remove a newly budding mustache.

The temporary tonsorial parlors were established on the platform off the assembly hall and while four or five husky students held the offender another removed the decoration with a safety razor.

Chief among the conspirators was Barker's own brother. It is hoped that this will serve as a warning against all future attempts to raise a lip decoration.

RECALLS ANNIVERSARY

Eastport, Me., July 11.—One hundred years ago today the town of Eastport was captured by a British expedition which had been sent from Halifax by Sir John Sherbrooke, the governor of Nova Scotia. There was no formal observance of the centennial anniversary, but the capture of the town was recalled as the most stirring event of the war of 1812 so far as this section was concerned.

Cured of Indigestion

Mrs. Sadie P. Clawson, Indiana, Pa., was bothered with indigestion. "My stomach pained me night and day," she writes. "I would feel bloated and have headache and belching after eating. I also suffered from constipation. My daughter had used Chamberlain's Tablets and they did her so much good that she gave me a few doses of them and insisted upon my trying them. They helped me as nothing else has done." For sale by all dealers.—Adv.

FISH DISTRIBUTED

lation of Santa Fe river was increased by 15,000 fry yesterday. Tesuque by 5,000, Sugarite at Raton by 14,000, the springs near Wagon Mound by 3,000, the upper Pecos by 20,000, the Mora and Sapello at Watrous by 14,500, all from the United States hatchery at Leadville, Colo., and brought from Raton to Santa Fe on the federal fish car by Captain E. K. Burnham of Leadville and Game Warden Trinidad C. de Baca. Altogether 92,000 fry in first class condition were brought to

BAD OPERATION AVOIDED

By Timely Use of Lydia E.
Pinkham's Vegetable
Compound.

Mrs. Sowers' Own Statement.

Hodgdon, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

New Mexico, \$500 of them haughty rainbow trout and \$3,500 eastern brook trout. A similar shipment will be brought down the Denver & Rio Grande railroad for streams on the west side of the Sangre de Cristo range. Game Warden de Baca, who had been at Clayton, was compelled to leave his automobile there because of washed out roads. He reports, however, that the rains have been of immense benefit to range and farms and that never in his life has he seen Union, Colfax and San Miguel counties look better. Every waterhole, every lake is filled, cattle and sheep are fat, crops are fine and the grass is high enough everywhere to be mowed.
